

Country Time

Refr.:

It's Country time so come on up

it's Country time let's start it up

I want to have some fun

with you tonight

I'm working hard almost every day

There's no space for jokes and a little fun

That's a reason why

I'm here tonight

I need some line dance, country music and some beautiful girls

I want some friends around me, jokes and a cool, cool beer

Refr.

So come on friends and sing with me

This song is made for you and me

We need this Country time

to be alright

It's Country time so come friends

it's Country time let's start to dance

I want to have some fun

with you tonight
