

# When Lee came to town

I was lying in the hay with Maryellen

A southern beauty with hair of gold

I've tickled her nose and something else

But that was the time before Lee came to town

Refr.:

When Lee came to town the very first day

She was crossing the street and I thought "My, oh my!"

That was the girl I knew I had to have

Yes that was the day when Lee came to town

Abigail, she was a rebel

Her hair was red and her kisses like fire

I thought it was love and kissed her so much

But that was the time before Lee came to town

Refr.

I had a date with Charlene

A brown eyed girl, sweet as honey

We've been in a barn until dawn

But that was the time before Lee came to town

Refr.

Yes that was the day when Lee came to town
